

BHAVANAM LIKITH REDDY

AI & ML Engineer | Full-Stack Developer

+91 8328428243 | bhavsnamlikithreddy@gmail.com | github.com/Likith616 | linkedin.com/in/b-likith-36b055247 | Hyderabad, India

SKILLS

Languages: Python, Java, C, SQL

Web: HTML, CSS, JS, React.js, Django, Flask, REST API

ML & AI: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV, Matplotlib, Seaborn, NLP, CV

Databases: MySQL, SQLite, SQL Server

Tools: Git, GitHub, Google Cloud, Jupyter

Concepts: OOP, DBMS, DSA, REST APIs, Data Pipelines

EDUCATION

B.Tech — AI & Machine Learning
Guru Nanak Institute of Technology
Hyderabad | CGPA: 7.35 / 10
Nov 2021 – Sep 2025

Class XII — Telangana Board
Score: 71% | 2021

Class X — Telangana Board
Score: 8.8 GPA | 2019

CERTIFICATIONS

- Generative AI — Google Cloud (2024)
- Artificial Intelligence — Infosys (2023)
- Web Development — Octanet (2024)
- Python for Data Science — Coursera (2023)
- DBMS Essentials — NPTEL (2024)

LANGUAGES

- English (Proficient)
- Hindi (Intermediate)
- Telugu (Native)

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration & Leadership
- Communication & Adaptability
- Time Management

INTERESTS

- Machine Learning & AI Research
- Computer Vision & Deep Learning
- Open Source Development
- Competitive Programming

PROFESSIONAL SUMMARY

AI/ML undergraduate with hands-on experience in deep learning, machine learning, and full-stack development. Proficient in Python, TensorFlow, PyTorch, Scikit-learn, and Django. Proven ability to build and deploy production-ready models and data-driven systems. Seeking entry-level roles in ML, software development, or data engineering.

EXPERIENCE

Web Development Intern | Octanet Services Pvt. Ltd.

Oct 2024 – Feb 2025

- Built 3+ responsive web pages using HTML, CSS, JavaScript, and React.js; improved UI/UX across 4 major browsers.
- Contributed to front-end feature development using Django within a structured team workflow

Full Stack Developer Intern | Tata Strive .

May 2026- present

- Working as a Java Full-Stack Developer intern, building and maintaining enterprise-grade web applications.

PROJECTS

AI vs Real Image Classification System

May 2025 – Sep 2025

ResNet50 | TensorFlow | PyTorch | Python | Django | OpenCV | Data Pipeline

- Built a ResNet50-based deep learning model classifying AI-generated vs. real images with 92% test accuracy on 50,000+ images.
- Detected synthetic artifacts (lighting inconsistencies, texture anomalies); deployed via scalable Django REST pipeline.

Vector Disease Prediction System — Team Lead

Feb 2025 – May 2025

Scikit-learn | Python | Flask | Pandas | NumPy | Seaborn | Matplotlib

- Led a team of 3 to build an ML model predicting vector-borne diseases with 88% accuracy across 5+ disease datasets.
- Performed data preprocessing, feature engineering, and iterative model tuning; presented at technical symposium.

E-Commerce Landing Page

2024

HTML | CSS | JavaScript | Responsive Design

- Designed a responsive page improving mobile UX; reduced estimated bounce rate by 25% across 4 major browsers.

Personal Portfolio

<https://likith616.github.io/portfolio/>

- Launched and deployed a portfolio using HTML, CSS, java script, and GitHub Pages showcasing projects and skills

ACHIEVEMENTS

- Secured Top 5 in college-level coding challenge.
- Participated in hackathons and competitive programming events.
- Active GitHub contributor; maintained personal and collaborative repositories.
- Organized technical workshops; active in sports and cultural activities.
